Profile

Software engineer with 2+ years of experience in a German-Tunisian product team. Focused on C#/.NET backend development with React, Docker, Linux and CI/CD experience. I am comfortable taking work from implementation to deployment and long-term maintenance.

Professional Experience

Full-Stack Software Engineer

Aug 2024 - Present

BrainStack (subsidiary of MENTZ GmbH, Germany)

Tunisia

- Develop and maintain production ASP.NET Core APIs and React applications, including application upgrades from .NET 6 through .NET 8 and .NET 10.
- Consolidated 50+ frontend repositories into a monorepo and replaced 50+ TeamCity projects with a unified CI setup, reducing a key data retrieval step from 5 minutes to 4 seconds.
- Maintain and extend a production CMS for a German public transport client across .NET APIs and React, including Docker-based deployments on remote Linux servers.
- Extended Quartz.NET with custom scheduling capabilities and built the React interface used to manage cron jobs.
- Resolved accessibility issues across multiple products, helping them pass a BITV compliance assessment.
- Built a secure, sandboxed environment on dedicated internal hardware for local LLM and agentic workflow experiments.

Full-Stack Developer Intern

Feb 2024 - Jul 2024

BrainStack (subsidiary of MENTZ GmbH, Germany)

Tunisia

- Built the first production version of a CMS for a German public transport client using .NET 6 and React.

Backend Developer Intern

Jun 2023 - Jul 2023

Astrolab Agency

Tunisia

- Developed NestJS and GraphQL services and added a local OpenSanctions cache to avoid duplicate paid API calls.

Education

National Engineering Degree in Software Engineering

2019 - 2024

Higher Institute of Applied Sciences and Technology (ISSATSo)

Sousse, Tunisia

Five-year, 300-ECTS-equivalent program: two-year preparatory cycle in mathematics, physics, and computer science, followed by a three-year software engineering curriculum.
